CORPORATE PRESENTATION

We are pleased to present **EKIPOL DEFENSE GROUP**, a leading company in the sale of military and law enforcement equipment since 1978, firmly established as a benchmark in the field of specialized tactical and technological equipment for security forces, defense institutions, and governmental agencies. Its prestige, both nationally and internationally, is built upon an unwavering commitment to excellence, continuous innovation, and a comprehensive approach to addressing the operational needs of security and defense professionals.

EKIPOL DEFENSE GROUP is a global business group integrating multiple specialized divisions focused on advanced training, the development and supply of tactical technology, international security consultancy, and the maintenance and management of strategic infrastructure for both institutional and private defense.

In addition, the **EKIPOL Group** oversees the maintenance, control, and development of shooting ranges and training infrastructures, ensuring their operational functionality and full compliance with national and international regulations, both civil and military.

We operate the largest civilian structure in Spain for the storage and custody of weapons and ammunition.

PHYSICAL AND LOGISTICAL PRESENCE

Aware of the need to remain close to those who protect and serve, EKIPOL DEFENSE GROUP maintains a solid network of retail locations and strategically located logistics centers throughout Spain, enabling us to deliver a highly specialized, high-level, and personalized technical service.

SPECIALIZED DIVISIONS OF EKIPOL DEFENSE GROUP

1. CFOE – Specialized Operational Training Center

Web: www.cfoe.es

CFOE Training That Transforms Professionals into Elite Operators

The Specialized Operational Training Center

(CFOE) is an international benchmark in tactical and operational training for security and defense professionals.

We design high-impact training programs for law enforcement agencies, armed forces, special units, close protection teams, and security operators, combining technical expertise, operational realism, and excellence.

Our methodology is practical, up to date, and results-oriented, with training scenarios that replicate real operational environments, enabling each trainee to develop skills applicable from day one.

With a presence in **Europe, Latin America, and Africa**, CFOE works closely with public and private institutions to raise training standards and develop professionals who are better prepared, safer, and more effective.

We operate advanced facilities, certified shooting ranges, and real tactical environments where training mirrors real operations: no simulations, no unnecessary theory—only performance.

CFOE. Train differently. Operate better.

Key Training Programs

Among its extensive and rigorous training portfolio, the following programs stand out:

- Firearms Preservation and Operation Course for Government Use
- H.E.A.T. Course (Hostile Environment Awareness Training): training for professionals operating in hostile environments and conflict zones
- Personal and Defensive Protection Course: focused on real-world self-protection in urban environments
- Seminars on Active Shooter Intervention, Management of Violent Subjects, and Handling of Excited Delirium Cases
- Canine Obedience and Operational K9 Training Course at basic, intermediate, and advanced levels
- University-Level Training in Operational Intelligence, Executive Protection, Risk Analysis, Cyber Intelligence, and Crisis Management

2. Custodios – International Security and Defense Consultancy

www.custodios.es

Custodios is an international platform operating under two major complementary divisions, designed to deliver global solutions and services of high strategic value.

The first division, with an international scope, focuses on specialized security and defense consultancy, providing advanced technical advisory services, comprehensive project development, implementation of operational solutions, and acting as an authorized channel for the acquisition and supply of next-generation military and law enforcement equipment, under strict confidentiality.

The second division is oriented toward the provision of professional private escort and specialized protection services, operating under strict protocols of confidentiality, tactical efficiency, and regulatory compliance, for institutional and private clients requiring personalized security solutions that meet the highest quality standards.

From its operational headquarters in **Dubai**, Custodios coordinates institutional supply operations, tactical unit equipment programs, technical assistance to governments, and the provision of security technologies adapted to high-risk environments, with an established international presence.

3. Astron Internacional S.A.

www.astroninternacional.es

Addresses:

- P.º de la Chopera, 29B, Arganzuela, 28045 Madrid, Spain
- C/ Ciudad de Toledo, 1 / Unit 25, 05004 Ávila, Spain

Astron Internacional is the technological division of the group, specializing in the supply and integration of advanced surveillance and electronic security systems. It provides governmental agencies and tactical units with solutions in night vision, thermal imaging, threat detection, remote monitoring, and perimeter protection, playing a key role in the technological modernization of special forces and operational intelligence units.

4. Tactical Xtreme

Website:

www.tacticalxtreme.com

Addresses:

- Av. Patrimonio de la Humanidad, 8–9–10, 05004 Ávila, Spain
- Av. de la Gran Vía de Hortaleza, 66, 28043 Madrid, Spain

Tactical Xtreme is a brand specialized in the distribution of high-performance tactical, outdoor, and technical-operational equipment.

Its product portfolio is aimed at tactical operators, elite units, special brigades, and intervention professionals, with products selected according to strict criteria

of durability, adaptability, functional efficiency,
and compliance with the highest international standards.
